Yeni pencereler açan
geniş vizyon

ERPEN'de...

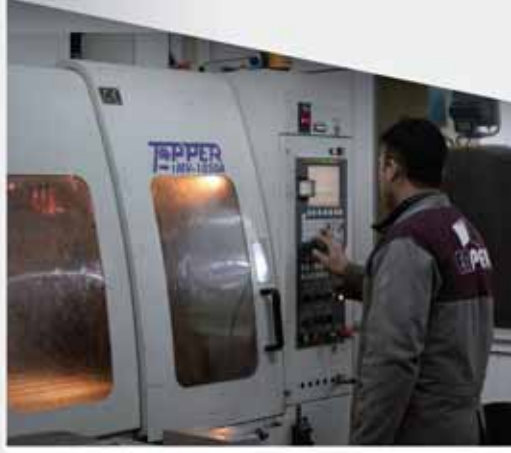

Polimer kapı ve pencere sektöründe faaliyet göstermek üzere 1993 yılında kurulan ERPEN A.Ş., Gaziantep'te 750 bin metrekarelik alana yayılan üretim tesisi ve 500 bin metrekarelik kapalı alan stok sahasıyla son teknolojiyle donatılmış

tesislerde üretimlerini gerçekleştirmektedir. Dünya standartlarında yüksek kaliteye sahip ürünler, yaygın bayi ağı ile yurt içinde ve yurt dışında son tüketiciyle buluşturulmaktadır.

ERPEN markasını Türkiye'ye ve dünyaya kazandıran ERPEN A.Ş. ülke genelinde bölge müdürlükleri ve yaygın bayi ağı ile yönetilmektedir.

Yüksek seviyede verimlilik, hayatı kolaylaştıran çözümler ve estetik tasarımlar üzerine yoğunlaşan ERPEN A.Ş., 12 farklı seriden oluşan geniş ürün yelpazesi ile tüketicilerin karşısına çıkmaktadır. Hızla değişen ve

daha da büyüyen ERPEN, yıllık 10 milyon metretül mamul stok kapasitesi, tamamı yüksek devirli (90-110) paralel makine parkuru, dakikada 5 metre profil çekebilen kalıp teknolojisi, 3 milyon kilokalorilik soğutma kapasitesi, dakikada 35 metre lamineli profil üretimiyle sektörünün öncülerinden biri olarak pazarda sağlam ve kalıcı bir yere sahiptir.

ilerleyen üretim teknolojilerinin günü gününe izlendiği ERPEN üretim tesisleri, hem büyüklük hem de donanım açısından Türkiye'nin sayılı tesislerinden biridir. Tüm hammadde, ara madde ve son analizler ile ürün dayanıklılık testleri, ERPEN A.Ş'nin polimer kapı ve pencere üretim tesisleri bünyesinde yer alan son teknoloji cihazlar ile donatılmış laboratuvarlarda gerçekleştirilmektedir. Hedeflerini her geçen gün

Üç mükemmel özellik...

YALITIM

+2 özelliği daha fazla yalıtım sağlıyor

Erpen, daha fazla ısı ve ses yalıtımı için profillerini +2 mm daha kalın üretiyor. Bu sayede kışın ısınmada, yazın serinlemede harcanan enerjiden daha fazla tasarruf edilmesini sağlıyor. Ses yalıtımının daha fazla olması ise daha huzurlu bir yaşam alanı sunuyor.

KURŞUNSUZ

Hem insanı hem de çevreyi koruyor

PVC ürünleri güneşe maruz kaldığında; taşınma, depolanma veya yakılması sırasında çevreye kurşun içeren emisyonların yayılması söz konusu... Kurşunsuz üretim konusunda sektörüne öncülük eden Erpen, tamamı kurşunsuz olan profilleriyle insan sağlığını ve çevreyi koruyor.

HİJYENİK

Bakterilerin üremesini engelliyor

Yaşadığımız ortamlarda her an bakteri, mantar ve virüsler gibi mikroorganizmalarla temas halindeyiz. Erpen profillerinin içeriğindeki özel formül, kapalı ortamdaki mikropların üremesini engelliyor. Bu şekilde kapalı ortamdakiler, mikropların olumsuz etkilerine daha az maruz kalıyorlar.

Pencereden daha fazlası...

Erpen, yenilikçi özellikleriyle kullanıcılarına avantaj sunuyor ve sektöre yön veriyor.
